ABOUT THE UNH-IOL

Since 1988, we have enabled multi-vendor interoperability, conformance testing and developed custom testing solutions while preparing students for careers within the computer and engineering industries. Over the years we have grown steadily into one of the premier independent labs for new technologies, allowing us to become a thought leader within the data and networking world. For more information, visit iol.unh.edu.

MEMBERSHIP BENEFITS

We offer collaborative test programs representing industry leaders in network equipment, test equipment, industry forums and service providers for the mutual benefit of all participants. By bringing together the key players of networking technologies, we provide services to industries that are critical to driving multi-vendor interoperability and increasing user confidence.

Why join the UNH-IOL?

- Increased confidence in your product
- Save money by reducing time to market
- Use industry recognized test reports for sales and certifications
- Access to custom test equipment and software saving you time and money
- Ability to shape our road-map to better serve industry needs
- Ability to test to multiple standards against globally recognized products all in one lab
- Attend annual group testing events at our state of the art, 28,000 square foot facility

In addition to our noted benefits, membership with the **IoT IP Testing Services** allows for custom application testing in both IPv4 and IPv6 environments providing IoT application validation.

PROPOSED PROCESS

Since 2016, we have been testing IoT IP technologies to ensure interoperability and standards conformance. The testing process we use is illustrated below:

Figure 1: UNH-IOL General Testing Process

SAMPLE TEST REPORT

When your products are tested at the UNH-IOL, you will receive a detailed report of the results. Our attention to detail, thorough procedures, and dedication to accuracy have made our reports a trusted source of third party validation and product analysis. Reports are available from our private, members only website. All formal reports are provided in a protected, not editable PSD format. A sample report format is illustrated below:

All reports are certified in digital format to ensure that your report is genuine and uncompromised. Testing with us gives you the confidence and peace of mind you want and that your customers demand.

MEMBERSHIP DETAILS

Option A: IoT IP Testing Services Membership	Annual Fees
<ul style="list-style-type: none"> • Test against an extensive testbed of gateway devices 	
<ul style="list-style-type: none"> • Collaborate with the UNH-IOL to perform custom application testing 	
<ul style="list-style-type: none"> • Schedule one test slot, at a time, per membership on a first come first serve basis. 	
<ul style="list-style-type: none"> • Support for testing of several products. These are tested serially throughout the membership year. 	
<ul style="list-style-type: none"> • Free regression testing. 	
<ul style="list-style-type: none"> • Overtime options for expedited testing (subject to additional fees). 	
TOTAL	\$20,000 USD

Option B: Non-Member IoT IP Pay Per Test Fees	Non-Member Fees
One Time IoT IP Interoperability Testing <ul style="list-style-type: none"> • Note: Price includes 5 days of testing and reporting. 	\$10,000 USD

SUMMARY

The UNH-IOL will provide your company the highest level of service while testing in our neutral environment as well as access to one of the largest test beds in industry. Selection by your company will significantly reduce costs to alternative testing efforts as well as reduce time to market. Please let us know if you have any further questions regarding this testing proposal or any of our services.
