Test solutions for:
- Switches
- Hubs
- NICs
- Printers
- Wireless/DSL routers
- Cable modems
- Set Top Boxes
- Motherboards
- Gaming Consoles

About 10BASE-T Testing Services
The UNH-IOL is a world class test house for 10BASE-T products. It operates as a one-time product test in with no requirement to leave a product in our test bed.

Tests covering:

The 10BASE-T/Te Testing Service currently offers four test suites that can be performed on a 10BASE-T product.

- MAC Conformance Test Suite based on IEEE 802.3 Clause 4
- 10BASE-T Physical Layer Conformance Test Suite based on IEEE 802.3 Clause 14
- 10BASE-Te Physical Layer Conformance Test Suite based on IEEE 802.3az Clause 14 (Energy Efficient Ethernet)
- 10BASE-T Repeater Conformance Test Suite based on IEEE 802.3 Clause 9

Key Benefits of using the 10BASE-T/Te Testing Service

- Year-round access to conformance testing helps reduce time to market
- Acts as an extension of in-house test labs providing debugging and technical expertise
- Industry recognized test reports
- Independent, vendor-neutral testing using a cost-effective student staffing model
- Identification of problems before products reach the market results in: lower support costs, QA savings, and increased customer confidence
- Cutting-edge testing equipment from our industry partners and UNH-IOL customized software and hardware
- Raise your visibility as an industry leader
- Consultative testing model helps quickly solve development issues and provides thorough, detailed feedback
- Engineers not required to be present during testing, saving travel time and money
