

Testing Services

Working closely with the INCITS T11 Technical committees and the Fibre Channel Industry Association (FCIA), we provide extensive testing coverage including debugging and refining Fibre Channel software and hardware. Fueled by leading-edge test tools and a growing test bed, membership saves costs and time getting Fibre Channel products to market, including **16Gig** and **now 32Gig**.

Fibre Channel over Ethernet Testing (FCoE)

FCoE testing for devices with speeds up to 10G is available for FCoE tier members.

- FCoE Initialization
- VLAN Discovery
- FCoE – BB-5 Encapsulation

Test Solutions

- Fibre Channel over Ethernet (FCoE)
 - FC-BB-5 Encapsulation
 - FIP, VLAN Discovery
- Interoperability
 - Fabric Build Test Suite
 - Fabric Pair Test Suite
- Conformance
 - FC-PI-x Test Suites
 - FC-1 Test Suite
- Physical Layer Conformance
 - 8Gig/16Gig Electrical and Optical Test Suites

Key Benefits

- Increased confidence in your product.
- Save money by reducing time to market.
- Use industry recognized test reports for sales and certifications.
- Access to custom test equipment and software saving you time and money.
- Ability to shape our roadmap to better serve industry needs.
- Ability to test multiple standards against globally recognized products all in one lab.
- Acts as an extension of in-house test labs providing debugging and technical expertise.
- Physical and protocol layer conformance services.
