

Home Networking Testing Services

Broadband Forum BBF.069 Certification Program:

We are the only official Broadband Forum approved TR-069 testing laboratory. Our collaborative nature has secured our position as a thought leader with an ability to offer TR-069 testing, ensuring proper implementations and leading to a higher level of service to the connected home. *This certification program has been expanded to include ACS & CPE interoperability!*

Test Solutions for:

- Home Routers

Technologies

- IPv6
- TR-069 (CWMP)
- DHCP, TCP, UDP

IPv6 Ready Logo CE Router Test Program: We are an ISO/IEC 17025 accredited test lab for the IPv6 CE Router test program validating the compliance to the IETF's, "Basic Requirements for IPv6 Customer Edge Routers." These test requirements will ensure a higher confidence when transitioning to the next generation IP.

IOL INTACT® Test Software

We offer IOL INTACT® software for IPv6 Core, CE Router, DHCPv6 and IPsec/IKEv2 Testing. This software includes pass/fail results reporting allowing testers to work from any location. With IOL INTACT® your product can be tested with the same tool used for IPv6 testing allowing issues to be resolved before sending products for official testing.
