

IOL INTACT® SOFTWARE

The IOL INTACT® custom protocol software will accelerate all of your in-house certification testing. Specializing in the protocol testing necessary for gaining USGv6 and IPv6 Ready Logo Certification, IOL INTACT® is the gold standard for IPv6 Testing.

KEY BENEFITS

- **Automated Testing** - Reduce time and costs
- **Results Archive** - Track testing over time
- **HTML and PDF Test Summary** - Collaborate and share results
- **API** - Integrate with your in-house regression testing infrastructure
- **Flexible Licensing** - Match your QA model
