Test Solutions for these Devices and More:

- SIP-PBX
- SP-SSE
- SBC
- Media Gateways
- MCU
- Service Providers
- Customer Endpoints

OVCC Reference Architecture

The SIP Consortium partners with the Open Video Communications Consortium to provide Visual Communications Service Architecture Testing. This testing is performed using a fully integrated end-to-end reference architecture. OVCC Members have the opportunity to obtain OVCC Certification through this testing.

IMTC SIPv6 Pre-certification

The International Multimedia Telecommunications Consortium has partnered with the IOL to provide SIPv6 Pre-certification testing for the Department of Defense Unified Capabilities Requirements (DoD UCR). A Fully Automated SIPv6 Conformance Testing Tool (IOL INTACT) is available to those Members who are also members of IMTC. Vendors may also schedule use of a SIPv6 test network and Interoperability Environment, to further validate their equipment.

SIPconnect 1.1 Testing

The SIP Consortium partners with the SIP Forum to provide SIPconnect 1.1 Compliance and Interoperability testing. Contact UNH-IOL or SIP Forum for more information on SIPconnect.

Key Benefits of Membership

- Year-round access to conformance and interoperability testing helps reduce time to market
- Acts as an extension of in-house test labs providing debugging and technical expertise
- Industry recognized test reports
- Access to IOL’s customized in-house developed IOL INTACT Test Software
- Independent, vendor-neutral testing using a cost-effective student staffing model
- Identification and correction of problems before products reach the market and reduces costly repetitive in-house R&D work
- Access to large multi-vendor test bed for interoperability testing
- Cutting-edge testing equipment from our industry partners and UNH-IOL customized software and hardware
- Raise your visibility as an industry leader
- Consultative testing model helps quickly solve development issues and provides thorough, detailed feedback
- Engineers not required to be present during testing, saving travel time and money
