

New Hampshire DAO Registry Design Sprint

Architecting America's First
Blockchain-Native State Registry

The Law is Written. The Code is Next.

Status: The NH DAO Act (HB 645) is now law, granting legal recognition to DAOs in New Hampshire.

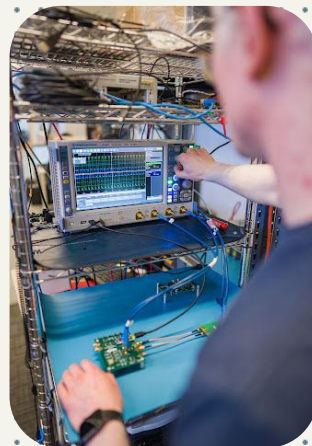

However, the technical link between legal statute and blockchain code remains undefined. The state needs a clear blueprint.

- Define the "Intent of Code" compliance standards.
- Design the registry architecture.
- Ensure interoperability across chains.

Who We Are

UNH-IOL

- University Lab funded by the Industry
- Global Testing for networking and data communications products
- 35+ Years of Industry Experience building trust and resilient systems.

Dual Mission of UNH-IOL

1

Industry Mission

Provide a neutral environment to foster:

- Interoperability
- Standards conformance
- Development for the interconnected world

2

Student Mission

Train and prepare UNH students for careers into tech.

150+ INDUSTRY CLIENTS

120+ STUDENTS EMPLOYED AS IOL TECHNICIANS

Hackathon An Ideathon

Our goal is to produce the
Registry Architecture White Paper:

The Official Blueprint for the State.

Day 1: Convene

Consensus on RSA 301-B interpretation. Bringing together Lawmakers, SoS Staff, and Industry Leaders.

Architect

Drafting the technical specs. Defining the FOSS licensing and interoperability standards.

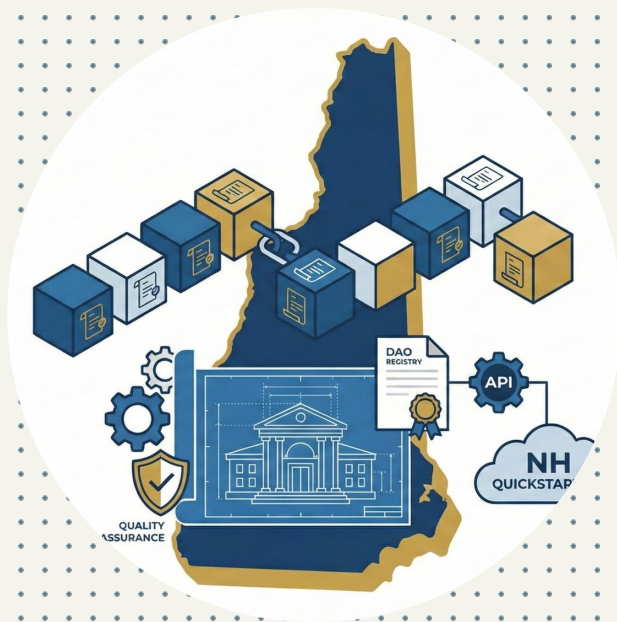

Day 2: Deliver

Finalize the White Paper framework. This document will become the basis for the State's build.

Day 1: Unconference

Foundations, Technical & Governance Architecture

- Set the level for all attendees (scoping and initial ideathon)
- Refine Ideathon Paths and Working Groups
- Sharing between groups
- Begin technical and governance architecture

Day 2: Focused Ideathon

Sustainability & Consensus

Goals

- Codifying the plan
- Finalizing blueprints
- Consolidating work into final White Paper frameworks
- Determining next steps and assignments

Attendance

Who is needed to make this a success?

Legal Professionals

**State Officials and
Regulators**

**Blockchain
Developers**

**Financial &
Business Model
Experts**

**Secretary of State
Internal Teams**

**Industry Thought
Leaders & DAO
Community Advocates**

Why Partner with the NH DAO Ideathon?

Sponsor a Piece of American History

Unrivaled Regulatory Access: Direct, three-day collaboration with the New Hampshire Secretary of State's office, legislative leaders, and the architects of RSA 301-B.

Set the National Standard: Influence the Open Source (FOSS) and interoperability requirements that will define the US's first blockchain-native state registry.

The "Founding" Narrative: Associate your brand with the genesis of decentralized corporate law.

Talent Pipeline: Engage with the region's blockchain developers and the next generation of UNH-IOL engineering talent.

Sponsorship Opportunities

Support the Initiative to Lay the Groundwork for America's
first blockchain-native state registry

Your sponsorship of \$1k–\$5k helps cover event
catering and ensures we can keep registration
free for everyone
