SUMMARY	7

ABOUT THE UNH-IOL

Since 1988, we have enabled multi-vendor interoperability, conformance testing and developed custom testing solutions while preparing students for careers within the computer and engineering industries. Over the years we have grown steadily into one of the premier independent labs for new technologies, allowing us to become a thought leader within the data and networking world. For more information, visit iol.unh.edu.

We are fully owned by the University of New Hampshire, the lab receives 100% of its funding from commercial companies in exchange for professional and testing services. Testing services include areas such as Ethernet, xDSL, Storage, Wireless, and Internet Protocol (including IPv6).

MEMBERSHIP BENEFITS

We offer collaborative test programs representing industry leaders in network equipment, test equipment, industry forums and service providers for the mutual benefit of all participants. By bringing together the key players of networking technologies, we provide services to industries that are critical to driving multi-vendor interoperability and increasing user confidence.

Why join the UNH-IOL?

- Increased confidence in your product
- Save money by reducing time to market
- Use industry recognized test reports for sales and certifications
- Access to custom test equipment and software saving you time and money
- Ability to shape our road-map to better serve industry needs
- Ability to test to multiple standards against globally recognized products all in one lab
- Attend annual group testing events at our state of the art, 28,000 square foot facility

PROPOSED PROCESS

Since 1998 we have been testing DSL technologies to ensure interoperability and standards conformance. The process that has been used by companies to achieve their DSL testing results is stated below.

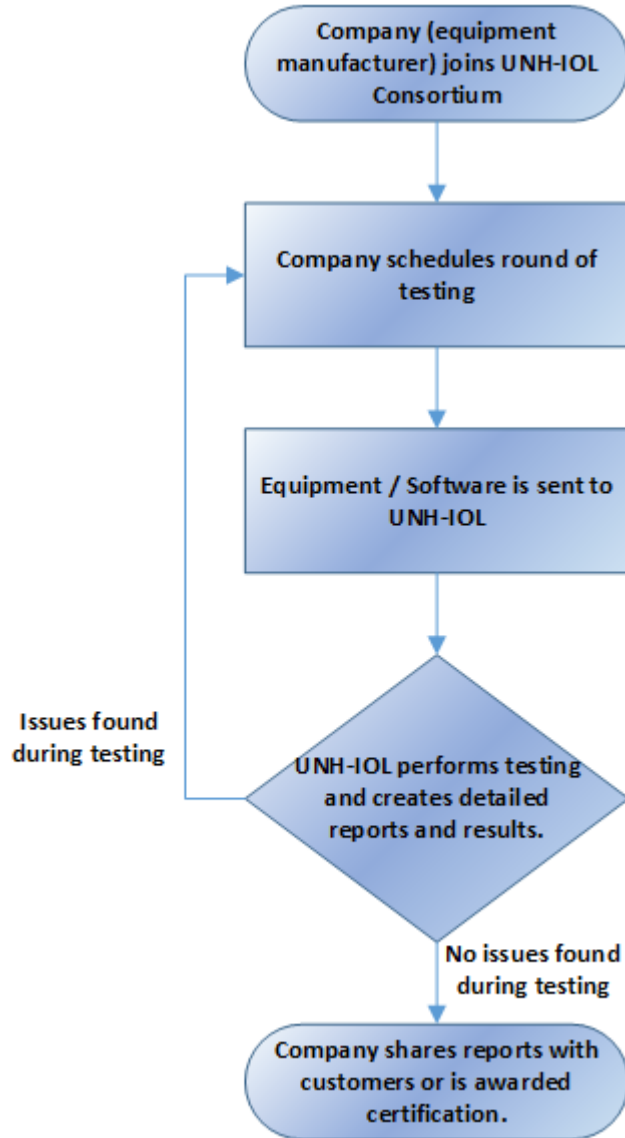

Figure 1: UNH-IOL General Testing Process

SAMPLE TEST REPORT

When your products are tested at the UNH-IOL, you will receive a detailed report of the results. Our attention to detail, thorough procedures, and dedication to accuracy have made our reports a trusted source of third party validation and product analysis. Reports are available from our private, members only website. All formal reports are provided in a protected, not editable PSD format. A sample report format is illustrated below:

MEMBERSHIP DETAILS

The DSL & Gfast testing groups offer multiple membership and pay-per-testing options, to help member companies engage with the groups in the most cost effective and efficient ways, while still providing the highest quality testing services.

Option 1: DSL Testing Membership	Annual Fees
<ul style="list-style-type: none"> VDSL2, ADSL2/2plus, and ADSL performance testing, including BBF TR-067, TR-100, TR-114 test plans 	
<ul style="list-style-type: none"> VDSL2 & ADSL2/2plus functionality testing, including BBF TR-105 and TR-115 test plans 	
<ul style="list-style-type: none"> Bonded system testing, including the BBF TR-273 test plan 	
<ul style="list-style-type: none"> Calix Compatible Testing, required to join their online partner program 	
<ul style="list-style-type: none"> Custom testing, based on member's requirements or test plans 	
<ul style="list-style-type: none"> Schedule one test slot per membership on a first come first serve basis. (See Proposed Process) 	
<ul style="list-style-type: none"> Support for testing of several products, tested throughout the membership year 	
<ul style="list-style-type: none"> Free regression testing 	
<ul style="list-style-type: none"> Participation in all DSL focused plugfests hosted by the UNH-IOL, including VDSL2 G.vector events 	
<ul style="list-style-type: none"> Overtime options for expedited testing (subject to additional fees) 	
DSL MEMBERSHIP TOTAL	\$22,000.00 USD

Option 2: Gfast Testing Membership	Annual Fees
<ul style="list-style-type: none"> Gfast certification testing, according to BBF Gfast Certification Program according to the ID-337 test plan 	
<ul style="list-style-type: none"> Gfast interoperability testing¹ 	
<ul style="list-style-type: none"> Custom testing, based on member's requirements or test plans 	
<ul style="list-style-type: none"> Schedule one test slot per membership on a first come first serve basis. (See Proposed Process) 	
<ul style="list-style-type: none"> Support for testing of several products, tested throughout the membership year 	
<ul style="list-style-type: none"> Free regression testing 	
<ul style="list-style-type: none"> Participation in all Gfast focused plugfests hosted by the UNH-IOL 	
<ul style="list-style-type: none"> Overtime options for expedited testing (subject to additional fees) 	
GFAST MEMBERSHIP TOTAL	\$22,000.00 USD

¹ Basic interoperability testing is available to members interested in preparing their implementation for certification testing.

Option 3: Joint DSL & Gfast Testing Membership	Annual Fees
• All benefits listed above of DSL Membership ²	
• All benefits listed above of Gfast Membership ³	
DSL & GFAST MEMBERSHIP TOTAL	\$36,000.00 USD

Option 4: DSL & Gfast Pay per Test Fees	Fees (Note 1)
• BBF TR-067 ADSL Performance Tests - Annex A North American Loops	\$2,000.00 USD
• BBF TR-067 ADSL Performance Tests - Annex A European Loops	\$2,000.00 USD
• BBF TR-067 ADSL Performance Tests - Annex B	\$2,000.00 USD
• BBF TR-100 ADSL2/2plus Performance Tests - Annex A North American Loops	\$2,000.00 USD
• BBF TR-100 ADSL2/2plus Performance Tests - Annex A European Loops	\$2,000.00 USD
• BBF TR-100 ADSL2/2plus Performance Tests - Annex B	\$2,000.00 USD
• BBF TR-100 ADSL2/2plus Performance Tests - Annex J	\$1,500.00 USD
• BBF TR-105 ADSL2/2plus Functionality Tests	\$6,000.00 USD
• BBF TR-114 VDSL2 Performance Tests - Annex A	\$2,000.00 USD
• BBF TR-114 VDSL2 Performance Tests - Annex B	\$2,000.00 USD
• BBF TR-115 VDSL2 Functionality Tests	\$6,000.00 USD
• BBF TR-127 Dynamic Testing of Splitters and In-line Filters with xDSL Transceivers	\$4,000.00 USD
• BBF TR-273 Testing of Bonded, Multi-Pair xDSL Systems	\$5,000.00 USD
• Rate vs. Reach Interoperability Test	\$2,500.00 USD
• Bonded Rate vs. Reach Interoperability Test	\$2,500.00 USD
• On-line Reconfiguration (OLR) Interoperability Test	\$3,000.00 USD
• Calix Partner Testing	\$6,000.00 USD
• BBF Gfast Certification Testing	TBD

² Fee includes the cost of one round of testing, which may be limited to a single combination of devices for interoperability / performance tests.

³ Fee includes the cost of one round of testing, which may be limited to a single combination of devices for interoperability / performance tests.

USAGE AGREEMENT AND CHARTERS

Each members agrees to abide by at least two documents when participating in testing. The UNH-IOL Usage Agreement, which provides basic governance of the UNH-IOL operations, non-disclosure, use of results, etc. The Testing Services Charter defines the specific requirements of each service, its area of focus, scheduling policies, and other technology specific aspects.

- <https://www.iol.unh.edu/sites/default/files/charters/unh-iol-usage-agreement.pdf>
- <https://www.iol.unh.edu/sites/default/files/charters/dsl-charter.pdf>
- <https://www.iol.unh.edu/sites/default/files/charters/gfast-charter.pdf>

SUMMARY

The UNH-IOL will provide your company the highest level of service while testing in our neutral environment as well as access to one of the largest test beds in industry. Selection by your company will significantly reduce costs to alternative testing efforts as well as reduce time to market. Please let us know if you have any further questions regarding this testing proposal or any of our services.
